

RING ITINERARY DEPARTING FROM OLIANINA FARM

Distance: km 58

Trip Grade: easy, suitable for non-professional cyclists

Route: fully paved on the Right and Left River Po banks

Leaving Olianina farm, we turn right and cover a brief stretch (only 2 Km) on the SS12 state highway until we head through Pieve di Coriano where we suggest a short stop to visit the gorgeous Matildic Church.

We keep riding on the main street and we come to the river Po bank, where we turn right towards Revere. We cross the bridge (on the cycle lane) and just before the end of the bridge, we turn left and then immediately right, taking the path of the Left River Po bank, towards Melara – Bergantino.

This area offers wonderful landscapes, both in the summer and in the winter, when a fog veil hides it in a mysterious atmosphere.

In Bergantino it is possible to stop and visit the museum of the ride and popular entertainment.

We go ahead again on the river bank until Castelnovo Bariano where we leave the cycle lane climbing down on the left to head through the bridge,

which we cross to reach Sermide. Here begins the return path riding on the Right River Po bank: the great river flows for a distance right close to the bank and gives us marvelous landscapes views among poplar plantations and verdant lawns.

Once we come to Revere we keep riding on the river bank until Pieve di Coriano where we go down and take the same path we followed in the outward journey, to come back to the Olianina farm.
